

Midpoint performance test protocol

Performance testing (version 2.2 demo)
Revision 6096

HW configuration

CPU: Intel(R) Core(TM) i5-2500K CPU 3.30GHz

RAM: 8.00 GB DDR3

Motherboard: Asus P8P67 DELUXE

GPU: NVIDIA Gainward GeForce GTX 570 Limited edition 2048MB

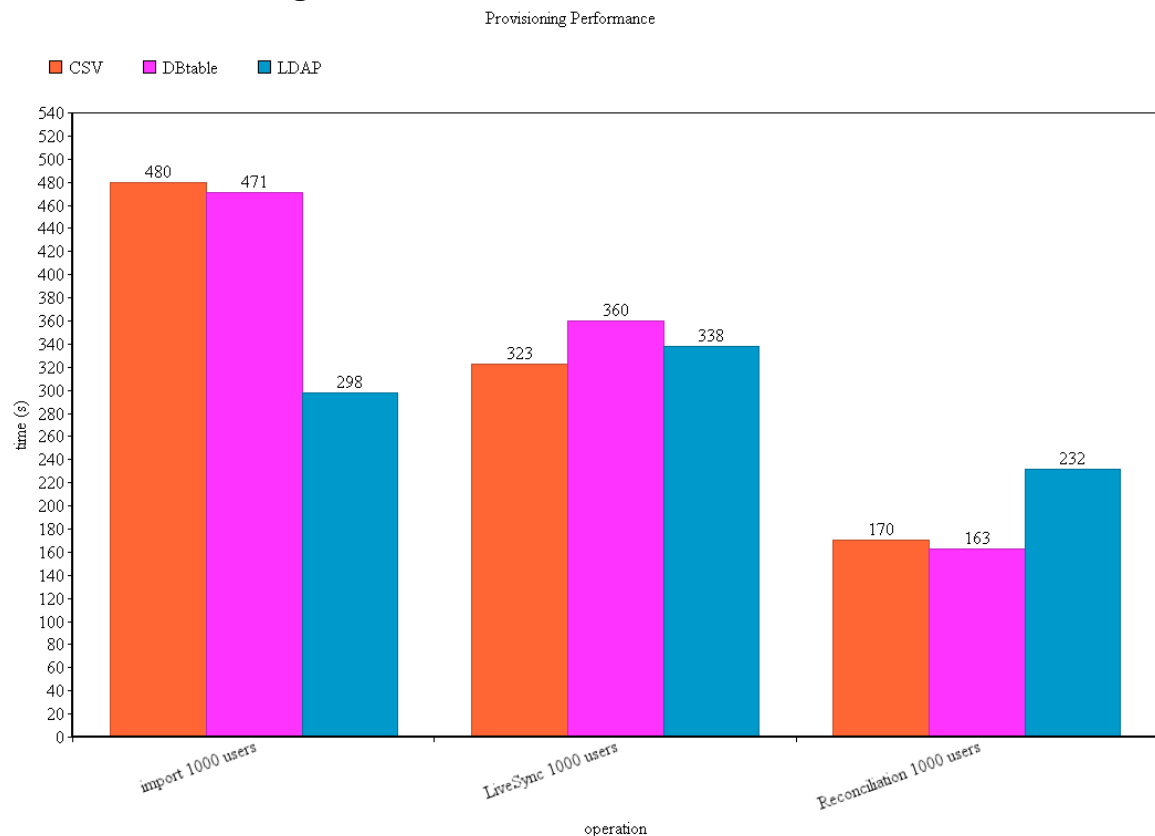

SW configuration

OS: Windows 7 Professional with SP1, 64b

Web Container: Tomcat 7.0

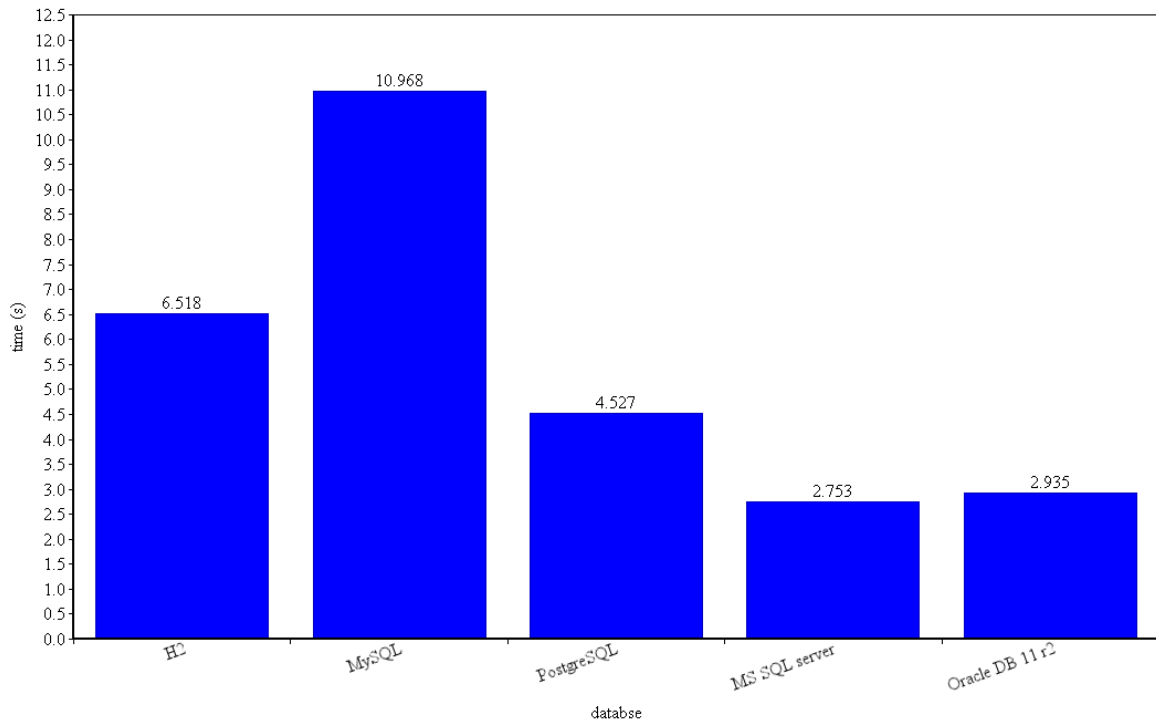

Overall Statistics

Resource Provisioning Performance

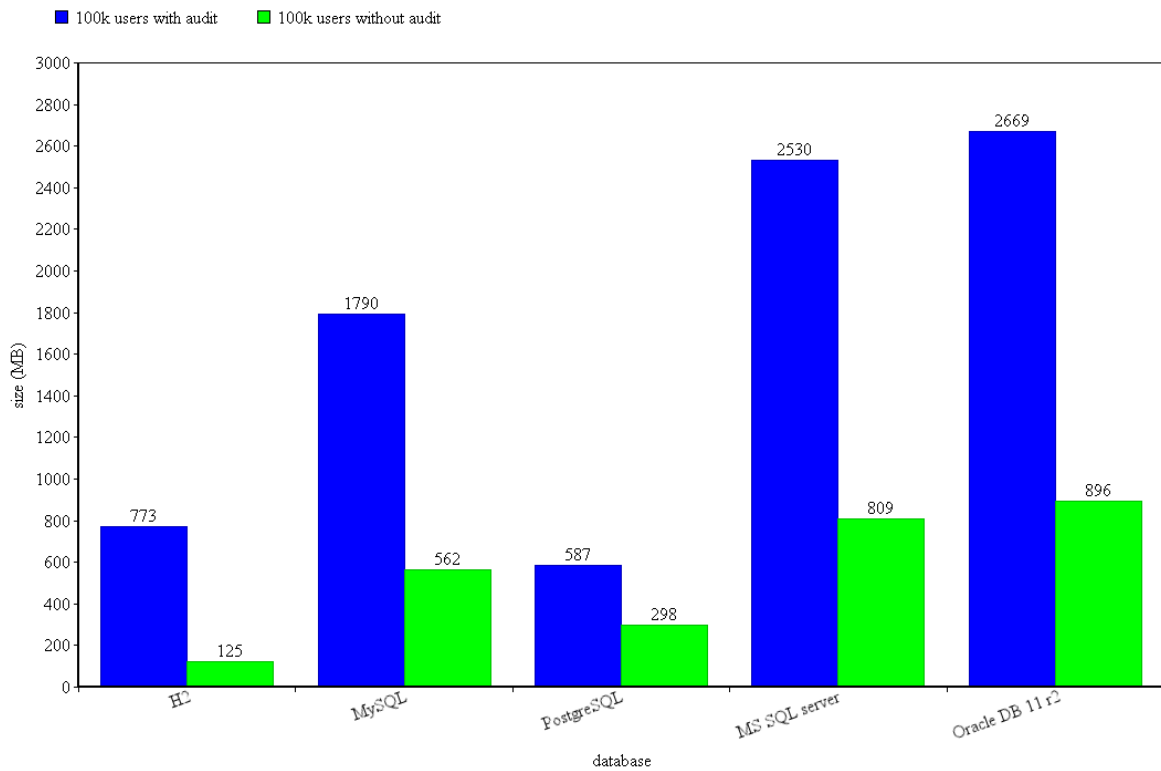

Average users page request with internalSize() count (100k users)

Users page request Average response

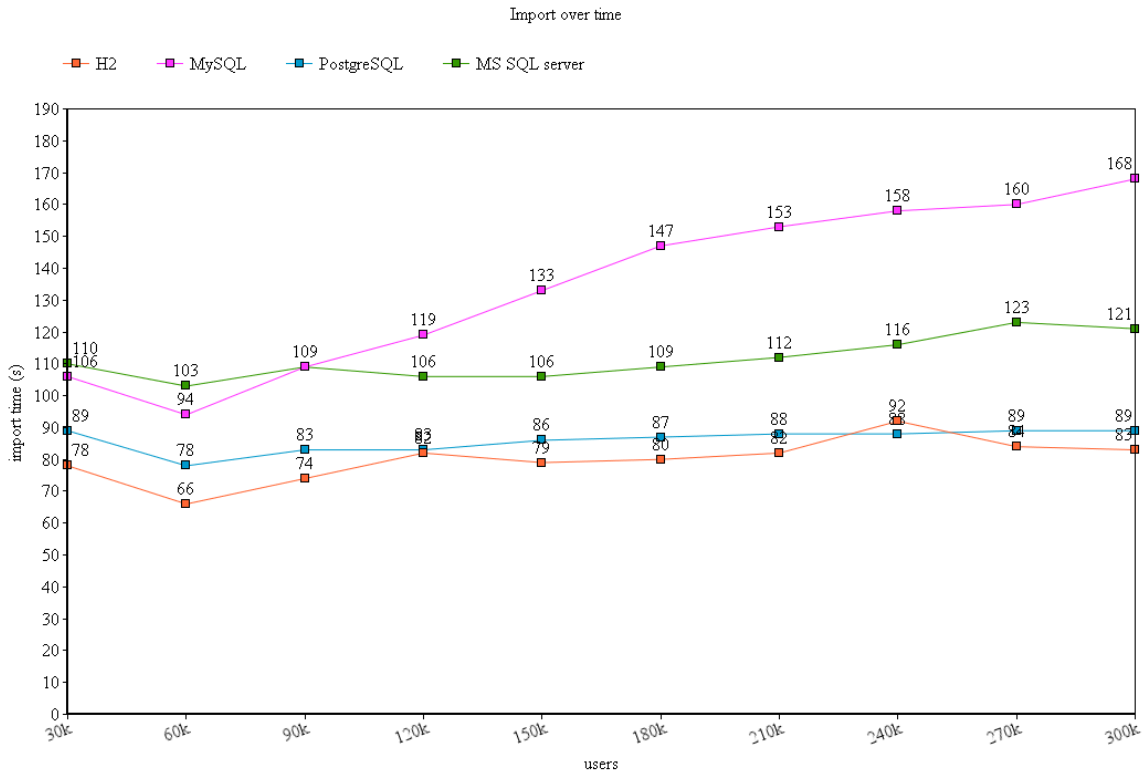

Database size

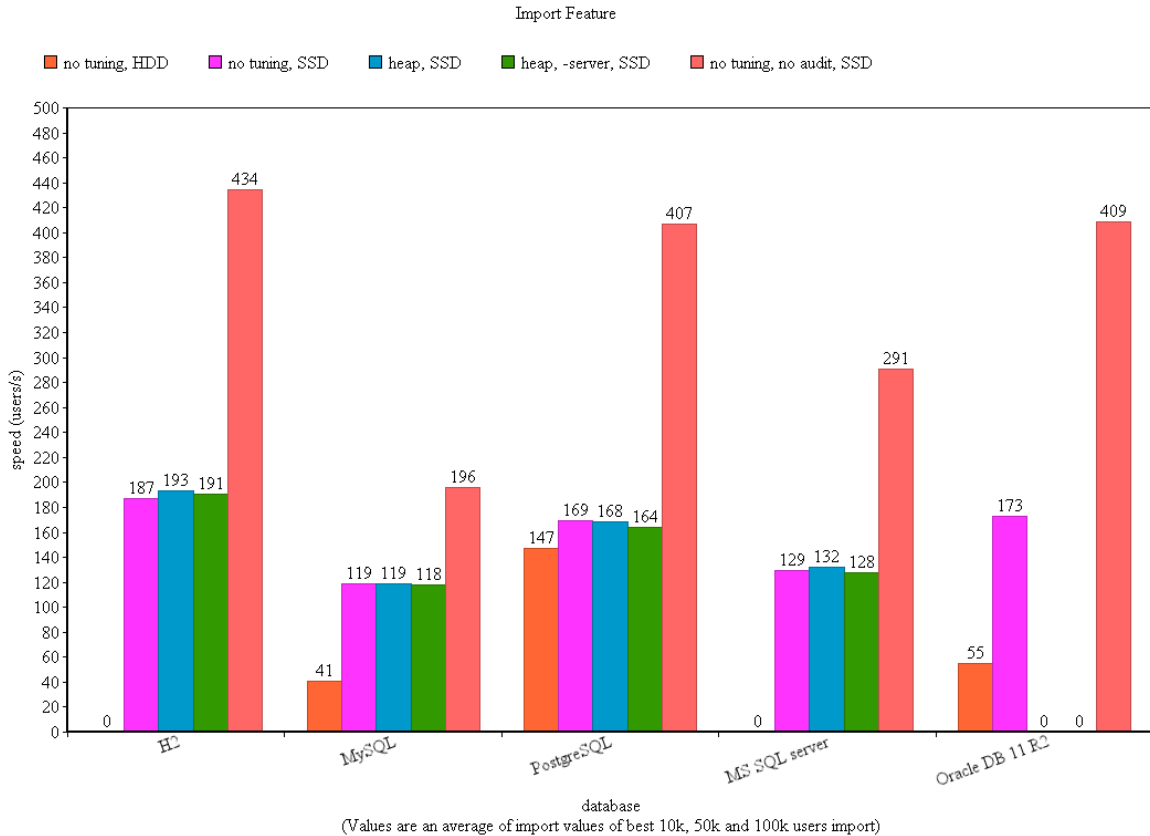

Database Size

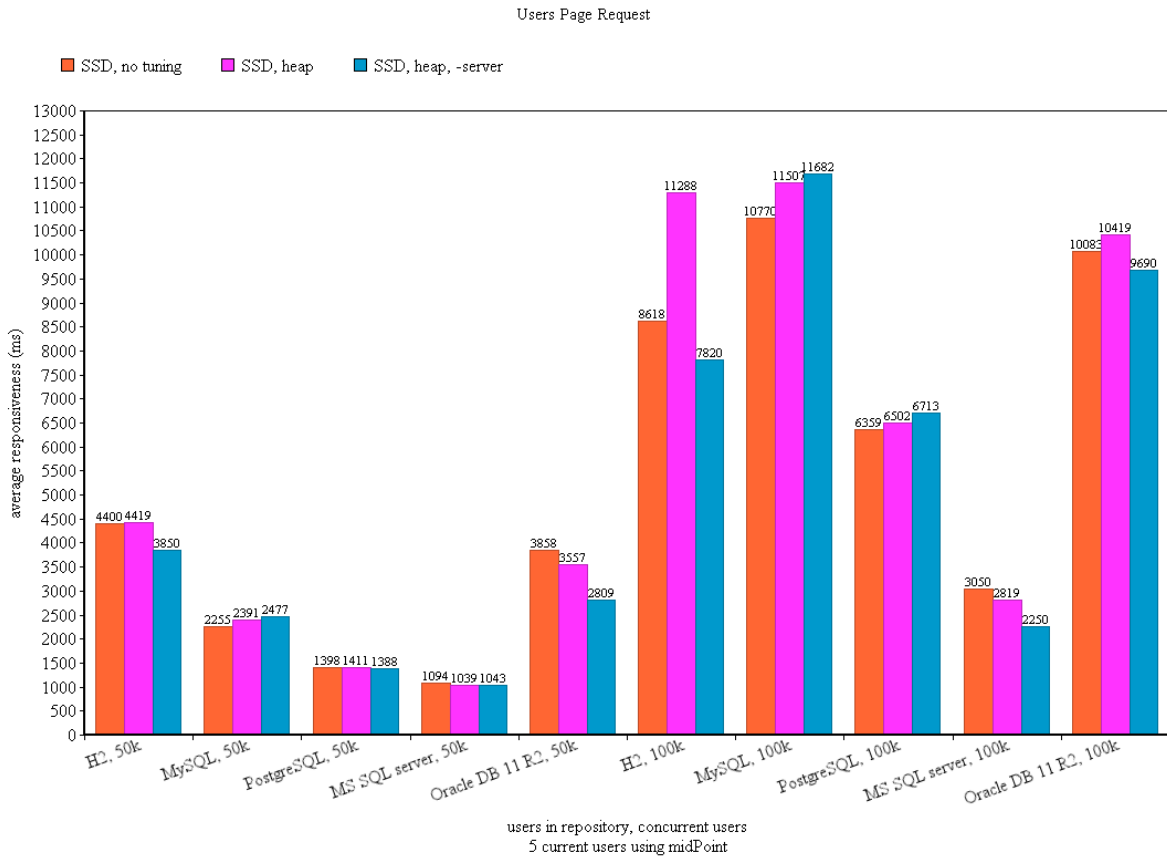

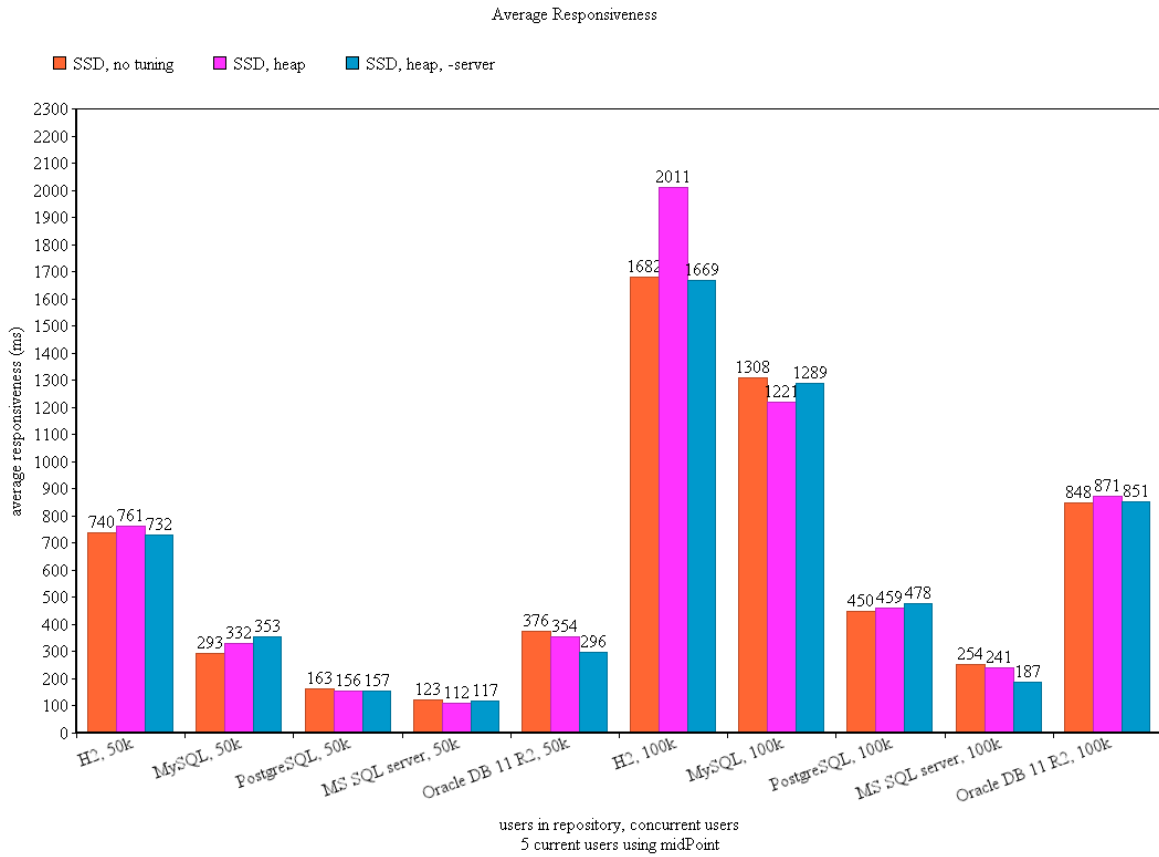

Import over time (measured on 300k sample without auditing)

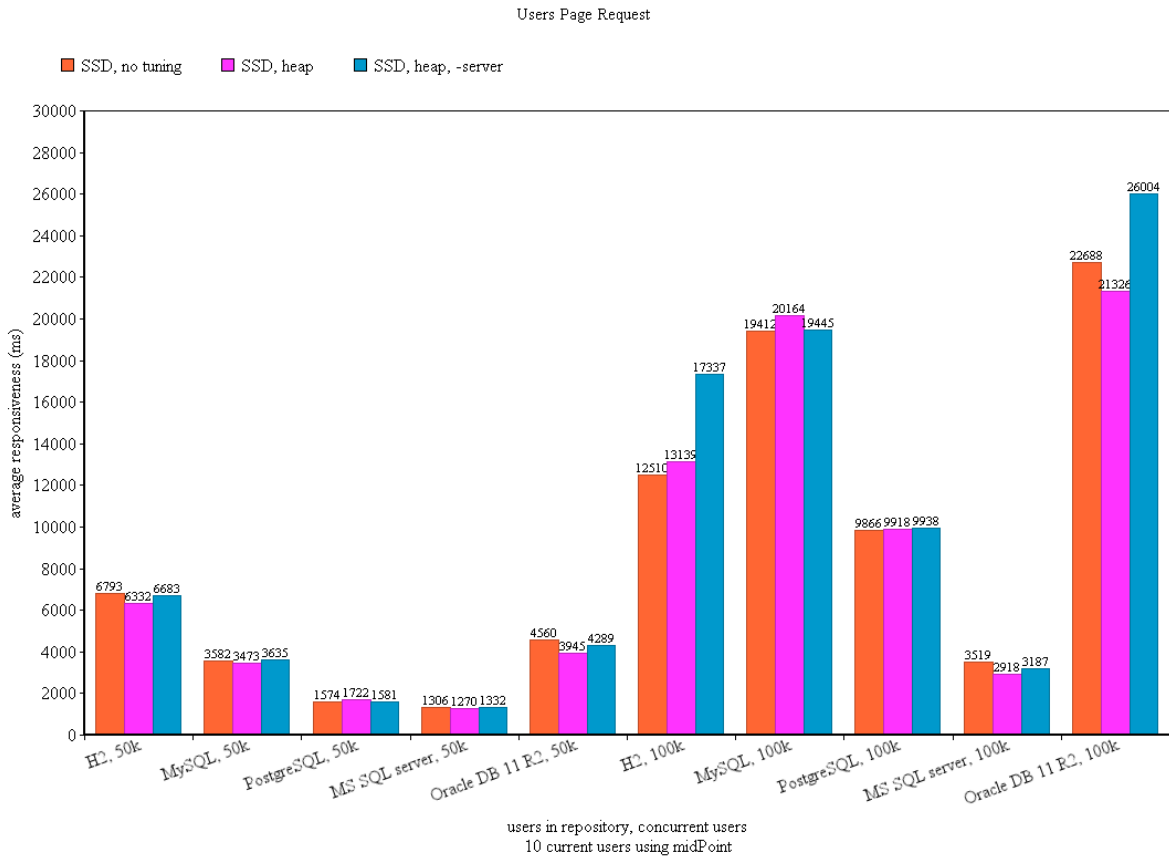

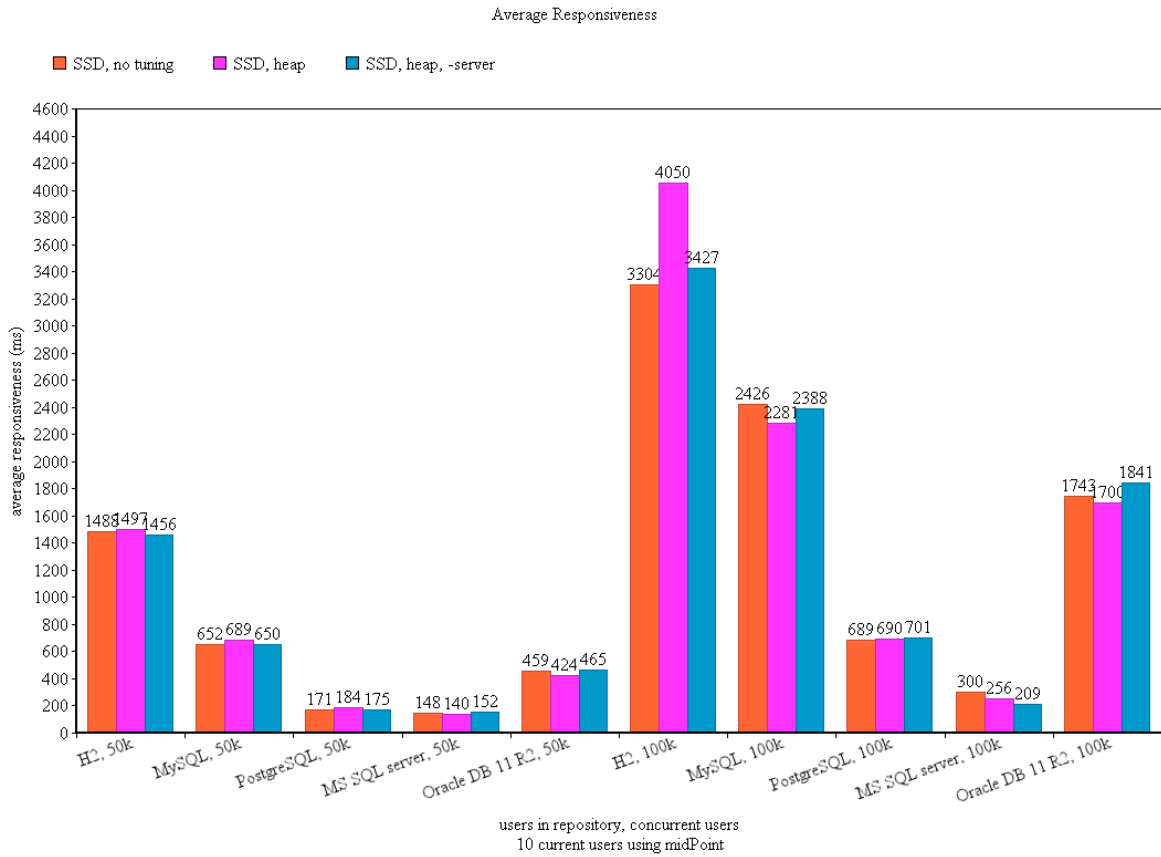

Import Feature Speed

Average responsiveness and Users page request (5 concurrent users)

Average responsiveness and Users page request (10 concurrent users)

Average responsiveness and Users page request (20 concurrent users)
